

90-Day Maintenance Medications

Get a 90-day supply of maintenance medications at three participating pharmacies:

Costco, Sam's Club, and Walmart.

How Does the 90-Day Retail Fill Work?

1. Ask your doctor for a prescription for a 90-day supply (plus refills, as applicable).
2. Take your prescription to a Costco, Sam's Club, or Walmart pharmacy.
3. You will pay the 90-day mail order copayment for your plan.
The exact amount you pay will depend on whether your medication is generic, preferred, or non-preferred brand. Please refer to your Summary of Benefits for the details of your plan.

How Does Mail Order Work?

1. Ask your doctor for a prescription for a 90-day supply (plus refills, as applicable).
2. If you need to start taking the medication right away, ask for another prescription for up to a 30-day supply to be refilled at a retail pharmacy.
3. Send the 90-day prescription, along with the completed mail-order form (which can be downloaded from www.emihealth.com) and the appropriate copayment, to Express Scripts at the address on the form. (You may also ask your doctor to fax your order to Express Scripts)
4. You will pay the Mail-order Copayment amount indicated on your Summary of Benefits. The exact amount will depend on whether your medication is generic, preferred, or non-preferred brand.
5. Express Scripts will process the order and return it via U.S. Mail or UPS, along with instructions for future refills. Allow up to 14 days for delivery from the time you mail the prescription.

Note

Plans enrolled in the Smart 90 maintenance program are not eligible for this benefit.
